

BALLTEC ENVIRONMENTAL POLICY

Management Commitment

During the design, planning and operation of projects and processes, Balltec is dedicated to conducting its activities in a manner which protects and safeguards the environment, its staff and the public.

To this end, Balltec are committed to continual improvement, prevention of pollution and compliance and applicable environmental legislation, regulations and with other requirements of organizations to which we subscribe.

The Environmental Policy will be regularly reviewed to ensure that it is compatible with the objectives and targets identified following consideration of the environmental aspects of the company's operations.

Balltec will communicate its Policy to its employees and make it publicly available and ensure that it is readily understood and clearly states the objectives to secure continual improvement in environmental performance. These objectives are the reduction in waste and consumption of resources, and the reduction or elimination of polluting releases.

Balltec Ltd administers their Environmental Policy through its suite of Safety, Health and Welfare documents and in particular, SWP-05 Control of Substances Hazardous to Health.

At every stage, Balltec will seek to advise and co-operate with clients and other interested parties in achieving the best available environmentally friendly design techniques. Balltec will encourage its subcontractors and suppliers to adopt similar policies and objectives and to implement sound principles for protecting the environment that lead to the achievement of sustainable development.

Balltec Ltd will review its environmental performance annually and amend its practices accordingly.
